

Your own global enterprise on Trade World Virginia business operating system.

The US-InterContinental Manufacturing Zones, Trade Operating System, and Enterprise Incubator

Trade World Virginia is an intercontinental infrastructure for manufacturing companies. TWEX/NET is a secure electronic exchange for transnational transactions and payments. TWV combined with TWEX/NET is an operating system for your own global trade enterprises. Among others, system wide agriculture revitalization is a priority.

- Global trades' typical patterns aren't good today. Communities are left behind, in the developed world, in the developing world, in faraway nations, in no particular patterns.
- To address the problems, we present a whole new system, a whole new paradigm, for restructuring US global trade, for the betterment of mankind. The goodness is in the details. We invite you to participate in this journey.

TWEX/NET

TWEX/NET is a secure electronic exchange for transnational trade. This is the financial inner core of Trade World Virginia.

TWV runs intercontinental manufacturing zones. Every TWV facility has an inland port, integrated customs, TWEX/NET exchange, banks, logistics, transportation, and support services such as education, healthcare, hotels, and many other related services.

High Dynamism and Broad Inclusion

High dynamism and broad inclusion provide most people the opportunities to use their talents to pursue happiness. What is dynamism and what is inclusion? The creativity of entrepreneurs, the thriving enterprises, the skills of financiers, the knowledge business managers draw upon. We draw much from Edmund Strother Phelps' recent works. Silicon Valley is a living breathing thriving example of a working system! TWV takes this model to the entire world and extends it beyond the technology industry.

What our friends say

“90% of what we do is logistics. Anything that solves it is good!”

—Anonymous, An Ag Business Executive.

“TWV sounds good. Good luck. Wish you all the best.”

—Anonymous, A US DoD Executive.

“Now we know, there are ways out!”

—Anonymous, A Virginia Tobacco Commission Executive.
